PTMT487

DELUXE MIXER TAP SOCKET SET

For installing and replacing mixer taps

- For accessing hard to reach nuts on mixer taps
- Kit Contains: Palm wrench, 8 deep sockets, 2 extension bars, universal joint, palm-sized ratchet handle

**INCLUDES
PALM
WRENCH**

**GREAT FOR
CONFINED
SPACES**

Designed
for flexible
connectors

PTPW545

PALM WRENCH

**Finally, a tool designed specifically
for flexible connectors**

- Taper fits all brands of connector
- No more adjusting of wrenches
- Handy palm size allows easy use in the most confined spaces

PATENTED

PLTG145

GRADIENT LEVEL ADJUSTABLE

Great drainers' tool

- Set dial to gradient required
- As used by plumbing inspectors
- Can also be used as a standard level
- Adjustable 600mm
- Strong construction
- Standard kit assembles to 1150mm
- Extra extensions available

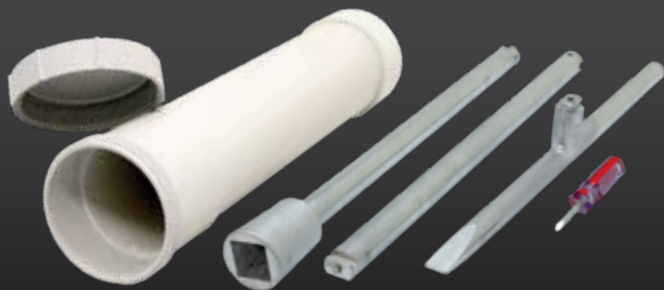

PTT0542

SLUICE VALVE, KEY & HANDLE

Fits sluice valves & water main valves

- Collapses for easy storage in a PVC container
- Strong construction
- Standard kit assembles to 1150mm
- Extra extensions available

Twice the reach of standard pliers

PLIERS FOR TAP WASHERS

Remove washers from the deepest brech or basin set

- Super long & Slim - 270mm

PTPW257

BREECH STRAIGHTENER

Straightens breeches & lugged elbows before fit-off

- Can be reversed to straighten lugged elbows

TAP HOLE CUTTER

Safely cuts holes in stainless steel sinks

- Waste is split in two for easy removal
- Bearing allows for easy cutting
- 32mm & 35mm come with step drill

22mm: PTTH684

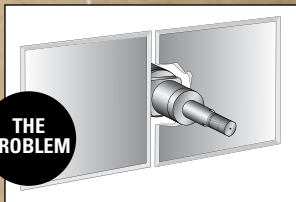

32mm: PTTH325

35mm: PTTH308

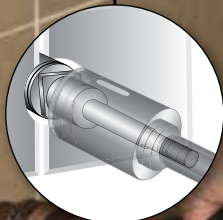

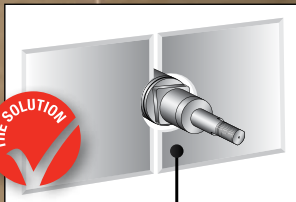

**TRADE
QUALITY!**

**THE
PROBLEM**

THE SOLUTION

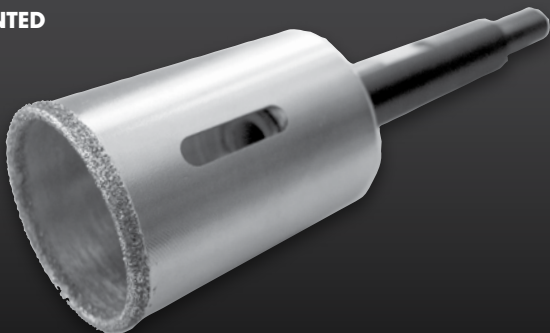

PTSA656

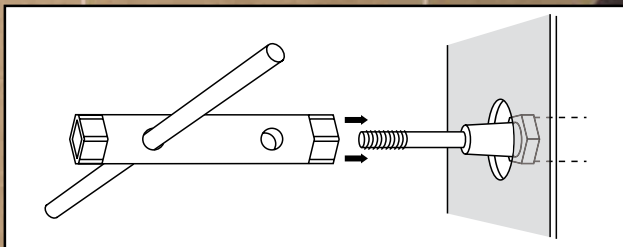

SPINDLE ACCESS DRILL

**The problem of tiles too close to the
spindles has been solved**

- Cuts tiles to allow access to tap body
- Diamond core drill will cut even the hardest of porcelain tiles
- Nylon bush prevents damage to the spindle

PATENTED

PTTS745

TUBE SPANNER KIT

Removes recessed and extended tap bodies

- Will not round out under stress; strongest on the market
- Kit Contains: Hex 20mm x 21mm, Hex 22mm x 23mm, Hex 29mm x Square 24mm, Hex 25mm & Hex 28mm, Turning Bar 230mm
- Made in Germany

**STRONGEST
ON MARKET**

TAP HANDLE PULLER

At last a tap puller designed for plumbers

- A must for maintenance plumbers
- Unique shroud stops slipping
- Holes in arms allow for removal of Ezy Clean handles

PTTH278

**INCREASE
GRIP X3**

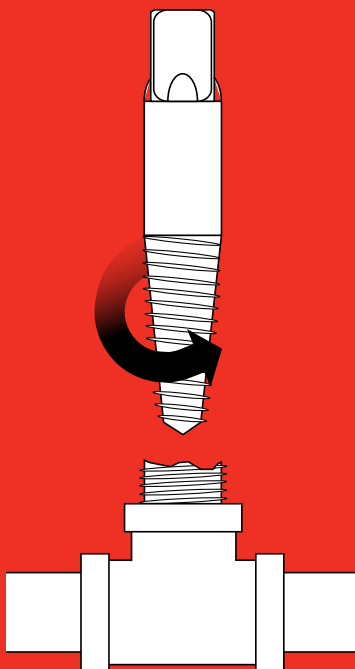

TAP FLANGE REMOVER

PTTF5324

**Remove difficult tap flanges
easily without damage**

- Use with your hand to increase grip x 3
- Grips any shaped flange
- Use very carefully with round jaw multi-grips to remove stubborn flanges
- Be sure to grab the rubber on the flap area

PTPS586

GAL PIPE REMOVER KIT

For removing broken, rusted
galvanised pipe from fittings

- To suit 1/2 and 3/4 inch pipe

Compress button

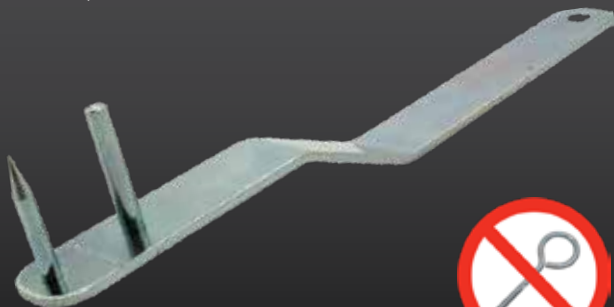

Kick cable sideways

PTSK3790

SEWER CABLE KEY

Easily remove stubborn cables and cutting heads

- Suits Ridgid and Rothenburger 32mm cable
- Not easily lost

PPDC836

PUMP ACTION DRAIN CLEANER

The best Force Pump on the market

- Ideal for toilets, sinks, basins
- Comes with 2 rubber adaptors

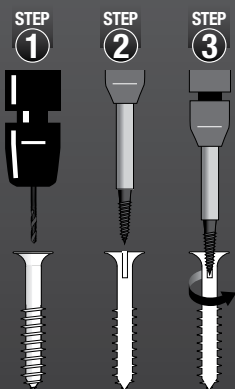

PTPC773

PIPE CUTTER

Suit Pex and Poly Pipe 6mm to 32mm

- Easy use
- Light-weight
- No burrs to file off

PTPS586

PAN SCREW REMOVER KIT

Removes burred or corroded pan screws easily

Kit contains: Drill bit, screw remover to suit brass pan screws, T-handle ratcheting wrench

SUPER HEAVY DUTY GATIC LIFTER

**BUILT TO
LAST A
LIFETIME**

PTGL563

- The Plumtool Lifter comes with two high tensile lifting bolts to help crack the seal on gatic lids
- The bottom plate is made from 20mm steel and will not bend

Ever had trouble lifting a Gatic lid?

Lifting a Gatic cover that has been in place for years can be a real problem. Armed with the right tools and some "know how" the job can be made easier.

Drive the Gatic Wedge between outer frame & cover to crack the rust seal.

Fit Gatic Lifter into place, lower the yoke over the handle of the lifter & tighten the lock nut down.

Place a wedge under the bolt to make allowance for uneven surface around lid. Tighten bolts.

When you apply some pressure to the Gatic Lifter handle, the lid will break free. Job done.

PTGLW569

GATIC WEDGE

- The Plumtool Gatic Wedge is the perfect tool for loosening Gatic lids
- Designed with a slim taper to be driven into the gaps around the edge of the lid
- Three flat circles have been ground into the surface of the wedge to allow it to be used under the lifting bolt of the Plumtool Heavy Duty Lifter
- For best results use 4 wedges. Leave the wedges in place until the cover is lifted.

PTGL9781

HEAVY DUTY D HANDLE GATIC LIFTER

Ever had trouble lifting a Gatic lid?

- The Plumtool Lifter comes with two high tensile lifting bolts to help crack the seal on gatic lids
- The bottom plate is 20mm steel, will not bend

PTGL167

D HANDLE GATIC LIFTER

**Ever had trouble lifting
a Gatic lid?**

- Manhole cover lifting made easy

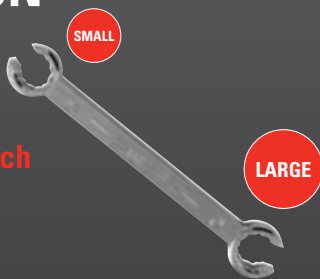

PTWR3443

COMPRESSION WRENCH - FLARED

**Fits all common 1/2 inch
Compression nuts**

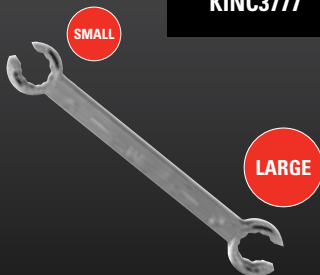

- No adjustment required
- No moving parts to rust up

KINKO WRENCH

**Fits all common
1/2 inch Kinko nuts**

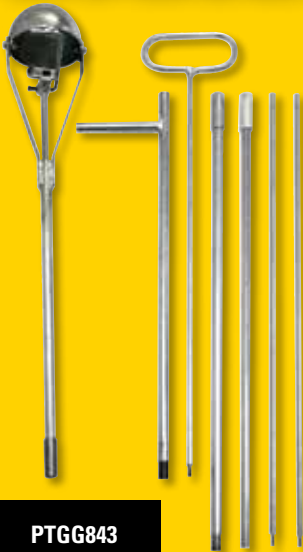

- No adjustment required
- No moving parts to rust up

KINC3777

GULLY GRABBER

PTGG843

DON'T TAKE THE RISK

The Gully Grabber is designed to remove hazards and blockages safely. Extends up to 2 metres. Stores in a handy 600mm tube. Genuine Plumtool. **Patented**

EXTENDABLE
UP TO 2 METRES

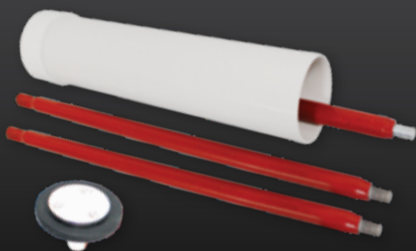

**WILL
NOT
RUST!**

PTPL545

PLUNGER 100/150mm EXTENDABLE HANDLE TO 1650mm

- Kit Contains: 3 x 550mm handles, extends to 1650mm in length
- All stainless steel head will not rust
- Moulded rubber with rounded edges
- Comes in heavy duty storage container (Extra handles available)
- Also contains 150mm plunger rubber

PTSS762

STEEL STUD DRILL 76mm

**The fastest and neatest
way to cut holes for
downpipes**

- Easily cuts pop holes in existing gutters

**CUTS
GUTTER LIKE
BUTTER**

STEEL STUD DRILL 34mm, 58mm

34mm: PTSS343

58mm: PTSS588

Designed for cutting metal studwork

- Also great for roofing work for overflows, etc
- 34mm to suit yellow grommets
- 58mm great for drainage vents

**FOR THE
PLUMBER IN
A HURRY**

STUD PUNCH

**Designed for cutting holes
in steel stud work**

- Cuts holes super fast
- Suitable for yellow and red grommets.

PTSP985

PZMG2986

MULTI-FIT GROMMET

- Works in varying thickness of studwork (thickness 0.42mm to 2mm)
- Complies to Australian Standards AS3500.1 12 Clause 5.5 2.2 Part C
- Insulates pipework from steel edges
- Suits hole made by Stud Punch

**BAG OF
100**

PATENTED

STEP DRILL

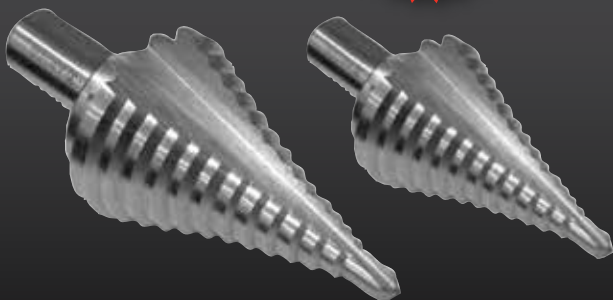

Designed for drilling
steel sheet metal

- Drill overflow holes in rainheads
- Drills up to 3mm thick steel
- Automatic deburring

4mm - 20mm
PTST968

5mm - 35mm
PTST967

**MULTI
PURPOSE**

HOLE SAW KIT

Ideal for cupboards

- Bi-metal & M2 high speed steel
- Kit Contains:
 - 44mm to suit 40mm DWV Pipe
 - 57mm to suit 50mm DWV Pipe
 - 73mm to suit 65mm DWV Pipe
 - 92mm to suit 90mm DWV Pipe
 - 114mm to suit 100mm DWV Pipe
 - 7/16 Arbor

PTHS568

MULTI FIT ARBOR

- Can be used to hold two sizes of holes saws to enlarge an existing hole

PTDA2365

PTHS987

TUNGSTEN HOLE SAW KIT

**Great for timber frames
and cement sheet**

- Pilot drill has tungsten tip suitable for cement sheet or timber
- Sizes to suit DWV pipe
- Drill tips made from certified YB8C Tungsten
- Kit Contains:
Tungsten tip arbor,
44mm, 59mm, 73mm,
93mm, 114mm hole saws

**2X
FASTER
THAN A
TRADITIONAL
HOLE SAW**

*Should not be used on compressed cement sheet

**4X
SPEED OF
STANDARD
HOLE SAWS**

PTRB985

RAPID BORE BIT KIT

The ultimate wood drilling tool

**HEAVY DUTY
STEEL CARRY
CASE INC.**

- Fast drilling and long lasting
- Comes with file to sharpen
- Kit Contains: Allen key for replacing spirals, heavy duty steel carry case, 2 x spare spirals, file for sharpening, 25mm Rapid Bore, 32mm Rapid Bore, 45mm Rapid Bore, 57mm Rapid Bore

**RAPID
BORE
BIT**

25mm: PTRB686
32mm: PTRZ7746
45mm: PTRB687
57mm: PTRB685
65mm: PTRB5963

**1375mm
LONG!**

PTND438

NOGGIN DRILL

**For drilling
noggin in
existing timber
frame walls**

- Connect to small eyelet in drill tip for easy installation of cables and wires
- Fits into chuck
- 6mm Flexible steel shaft
- 25mm x 1375mm long

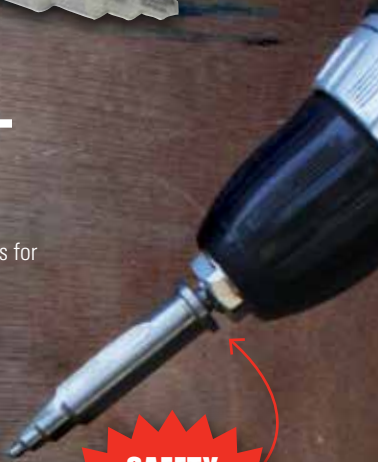

PTTD685

TRAP DRILL

Drills and deburs in one action

- Designed for drilling inlet in traps for dishwasher installation

**SAFETY STOP
PREVENTS
OVER
DRILLING**

350mm: CGBG8172

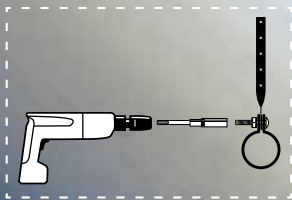

500mm: PTDS3942

PVC PIPE SAW WITH DEBURRER

**Unique teeth design will
not shatter pipe**

- Specifically for cutting PVC pipe
- Comes with deburrer
- Will not shatter pipe
- 280mm blade length (350mm saw)
- 420mm blade length (500mm saw)

PTDT853

DRILL TITE

The fastest way to install pipe cups

- Great for removing rusted or painted nuts
- Suits all standard clip heads

PTDB684

DOUBLE ENDED DRILL BITS

Drills faster, lasts longer

- For common rivets
- No. 30
- Won't slip or run off
- Pack of 10

- 150mm Jaw
- Used for turning up sheetmetal
- Spring Loaded
- Ideal turn up tool

PTNB222

NAIL BAG

**Tough nylon material,
won't rip or tear**

- Large pockets for screws or rough-in fittings
- Will hold over 1,000 rivets per pocket
- Comes with optional braces to take the weight off the belt
- Reduces hip fatigue
- Metal buckle and steel reinforced eyelets

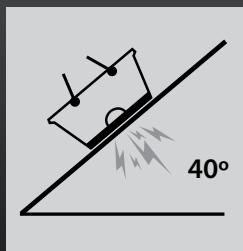

PTMB6998

MAGNO BUCKET

Non-slip carry all!

- Built-in magnet holds bucket to steel roof
- Patented base fits to standard corrugated roofing
- 24 litre capacity
- 250mm D x 380mm L x 250mm W

PTPC875

INTERNAL PIPE CUTTER

**Diamond blade will not blunt
on concrete**

- Cuts 40mm up to 150mm
- Extension bars available

**CUTS
PLASTIC PIPE
INTERNALLY**

PTCT814

CRIMPING TOOL SHEET METAL OFFSET 5 PRONG

45° Offset Blade

- Perfect for crimping sheet metal flues and downpipes.
- Allows you to create a small end to enable connection.
- The five blades are designed for use with round downpipes and flues

THERMOCOUPLE TESTING AND REPLACEMENT KIT

Testing and replacement made easy

- This kit includes spanners to suit any thermocouple and also includes a testing device to determine if the existing thermocouple is still working.

Unscrew existing thermocouple from the control unit of the appliance.

Fit the end of the thermo

Whilst holding down appliance button for 20 seconds, depress the spring on the testing device.

Release pressure on the

PTTT942

2

couple into the tester.

3

Light the pilot using the normal method for the appliance.

5

spring of testing device.

If the spring on the testing device remains closed then the thermocouple is working and power is being supplied to the electro-magnet in the testing device. If the spring releases while the pilot light is on, then the thermocouple is faulty and should be replaced.
